Faculty Achievements

"The funding for materials received through my
Junior Faculty Research Grant has been extremely beneficial. I am currently preparing art work for national solo and two-person exhibitions, neither of which would have been possible without the OVPR/Wilson Center Faculty Research Grants.

Jon Swindler, Lamar Dodd School of Art

"The Willson Center Faculty Seminar Grant serves our workshop as seed money in a couple of different ways. Visits from outside speakers to present on issues that our faculty and graduate students are working on generates momentum for our workshop and our research ... Last year we raised an additional $1100 from three different departments to compliment our Willson funds."
